difficult journey towards a single internal market he also gets to the heart of debates about labour reform the social security system higher education and the role of the state and he asks the key questions of the future how will india as a global power avoid the mistakes of earlier development models will further access to the open market continue to stimulate such extraordinary growth and how will all this affect and be shaped by her young people nandan nilekani s journey with infosys began in 1978 even before infosys was formed when he joined patni computers after graduating from iit bombay and began working under n r narayana murthy three years later on july 2 1981 infosys was born under the leadership of murthy and the other co founders s gopalakrishnan k dinesh ns raghavan nm nilekani and sd shibulal murthy had borrowed rs 10 000 from his spouse the team worked hard to build infosys through the 1980s and 1990s infosys has its head office at bangalore it specializes in it and bpo services it provides such services around the world over and has strength of 58 000 employees it has an annual revenue of 2 billion and market capitalization of 21 billion nandan nilekani co founded infosys along with narayana murthy since its inception in 1981 he has held several posts in the organization until he was appointed ceo in march 2002 is your technology driving you crazy we are in a toxic relationship with our devices the line between work and home has become blurrier than ever the constant onslaught of information affects our mental peace we all know this is not good for us yet we can t help ourselves from going back for one more scroll the internet cannot be avoided but our relationship with it can change the art of bitfulness helps create healthy boundaries between you and the floodgates of the internet it offers new strategies to reclaim your time privacy and attention this book is all about how to live with tech not how to live without it the goal is not to spend less time on your devices it is to spend your time on your devices better this book also talks about how we got here in the first place why does our technology limit us rather than liberate us the art of bitfulness offers a new way of building tech for all rather than a winner take all system the authors of this book are veterans of the digital world they are optimistic about technology s potential to transform society but are pragmatic about what needs to happen to get there this book is not anti tech it is pro you a timely call to reshape government through technology Nilekani earned his place as an iconic entrepreneur in india in the 1980s having co founded Infosys limited in 1981 in the post economic liberalisation era he cemented his reputation as a pioneer in the corporate and information technology world just as he helped launch Infosys into the big league of world s it enabled services companies he served as the company s chief executive officer from 2001 to 2007 at the fag end of his career in Infosys Nilekani wrote a best selling book in 2009 imagining india the idea of a nation renewed the book is widely acclaimed for heralding a new idea based approach to meet the present and future challenges facing india it spelt out the theoretical framework for the provision of a unique identity for all its citizens as an important step towards putting what Nilekani called human capital front and center as the main driver of productivity and growth his long experience in the corporate world and his passion for the citizen empowerment as proved in the successful bangalore agenda task force experiment started in 1999 as well as enunciated in his 2009 book made him the natural choice to be the first chairman of the unique identification authority of india uidai that was being set up by the union government to provide residents of india with a unique identity and a digital platform known as the aadhaar Nilekani left Infosys to head the uidai in july 2009 in five years aadhaar has transformed india s approach to socio economic justice and equity and became the lynchpin to the government s welfare programmes that seek to achieve these goals it also set the stage for an efficient and transparent mechanism to monitor government programmes which is crucial to cut waste and slippage in order to maintain fiscal prudence at the national level the authors of the essays in this volume are accomplished experts in their respective fields together they piece together a wide range of issues relevant to india s present and future fiscal and monetary policies political and economic governance financial sector reforms financial inclusion urban development corporate governance competitive markets food security national security public policy advocacy and information communication technology the volume not only offers clear cut analyses on these topics but also a clear vision for the future journalistic reports collected by reporters and photographers of the hindustan times before the 15th lok sabha elections in 2009 uncommon ground brings together titans of industry and leaders of civil society to explore eight themes that are highly relevant for our future development based on rohini Nilekani s 2008 show on ndtv the conversations explore the middle ground between the ideological divisions that often polarise the business and voluntary sectors in course of these rare dialogues between leaders who have sometimes been adversaries a number of common concerns emerge the author uniquely placed to moderate these discussions as she traverses both sides herself demonstrates that the relationship between business society and state need not be necessarily confrontational rich in insights uncommon ground highlights the critical importance of dialogue in our democracy to create a shared vision of the future it is a significant contribution to the ongoing debate on development and equitable growth in india a collection of over a decade of articles interviews and speeches by rohini Nilekani samaaj sarkaar bazaar a citizen first approach showcases her journey in civil society and philanthropy she outlines her philosophy of restoring the balance between the state and markets by positioning society as the foundational sector

around the world the fringes have stormed the palace of the elites and unleashed data miners dark ads and bots on an unwitting public after years of soundbites about connecting people the social media giants are only just beginning to admit to the scale of the problem we stand on the precipice of an era where switching your mobile platform will have more impact on your life than switching your government where freedom and privacy are seen as incompatible with social well being and transparency where your attention is sold to the highest bidder our laws don't cover what is happening and our politicians don't understand it but if we don't fight to change the system now we may not get another chance the march towards a new india began with its entry onto the global stage as a rising economic power impelled by liberalization policies and the forces of globalization the success of india's information technology industry symbolizes these larger developments yet we lack a critical understanding of the wider social and cultural reverberations of this phenomenon reengineering india explores india's post liberalization transformation through the lens of the software industry this book views the it industry as a key site where new identities aspirations and social imaginaries are being created and circulated it examines the origins and organization of software capital the production of the indian it workforce the introduction of new forms of work and management and the connections between software and the new middle class the author argues that the software industry has been central to india's post liberalization refashioning yet it remains deeply embedded in older structures of inequality and modes of accumulation an anthropological account of the relationship between work class capital and culture in india's new economy this book is essential reading for thinking about the future of the post it revolution nation the relationship between information and the nation state is typically portrayed as a face off involving repressive state power and democratic flows twitter and the arab spring google in china wikileaks and the u.s state department less attention has been paid to those scenarios where states have regarded information and its diffusion as productive of modernity and globalization it is the central argument of this book that the contemporary nation state especially in the global south is far from hostile to the current informational milieu and in fact makes crucial use of it in order to develop adequate modes of governance communication and sociality in a networked world this book focuses on india an emerging country that has recently witnessed a software miracle to highlight the critical role informatics has historically played in the national imagination and to demonstrate how the state private capital and civic society have drawn upon and engaged the precepts and protocols of the information age to fashion an info nation stories that bind political economy and culture in new india examines the assertion of authoritarian nationalism and neoliberalism both backed by the authority of the state and argues that contemporary india should be understood as the intersection of the two more importantly the book reveals through its focus on india and its complex media landscape that this intersection has a narrative form which author madhavi murty labels spectacular realism the book shows that the intersection of neoliberalism with authoritarian nationalism is strengthened by the circulation of stories about emergence renewal development and mobility of the nation and its people it studies stories told through film journalism and popular non fiction along with the stories narrated by political and corporate leaders to argue that hindu nationalism and neoliberalism are conjoined in popular culture and that consent for this political economic project is crucially won in the domain of popular culture moving between mediascapes to create an archive of popular culture murty advances our understanding of political economy through material that is often seen as inconsequential namely the popular cultural story these stories stoke our desires e.g. for wealth scaffold our instincts e.g. for a strong leadership and shape our values this volume examines the idea of india as it emerges in the writing of its anglophone elite post 2000 drawing on a variety of genres including fiction histories non fiction assessments economic political and business travel accounts and so on this book maps the explosion of english language writing in india after the economic liberalization and points to the nation's sense of its growing importance as a producer of culture from ramachandra guha to william dalrymple from arundhati roy to pankaj mishra from jhumpa lahiri to amitav ghosh from amartya sen to gurcharan das from barkha dutt to tarun tejpal this investigation takes us from aesthetic imaginings of the nation to its fractured political fault lines the ideological predispositions of the writers often pointing to an asymmetrically constituted india a major intervention on how postcolonial india is written about and imagined in the anglophone world this book will be of great interest to scholars and researchers of cultural studies literature history and south asian studies it will also be of interest to general readers with an inclination towards india and indian writing from the world's premier management consultancy mckinsey company a comprehensive collection of essays by the brightest experts on what the new global elite needs to know about modern india in its longest and costliest ever elections india shall vote for 543 parliamentary constituencies with an electoral force of over 814 million voters again largest in the world the 2014 general elections are slated to take place in 9 phases beginning 7th april 2014 till 12th may 2014 the result of these perspective contains detailed classified and

beautifully elucidated astrological predictions about the political scenario in india in the near future the predictions begin with the general planetary picture and a highly intriguing overview of the post elections picture we also attempt an astrological take on some of the most important indian political leaders and major celebrities contesting elections and last but not the least the book does forecasts on major star wars most crucial and captivating electoral contests of the elections 2014 and their results we hope that indian general elections 2014 an astrological perspective book helps you make the right decision when you go out to cast your vote do exercise your right to vote remember every single vote counts this book is an intimate and a rare collection of more than 30 stories of top indian business leaders about how late professor ck prahalad inspired and guided them through their most painful journey after the 1991 economic reforms most of them who didn't think they could survive the mnc onslaught went on to build profitable global enterprises at a time when most business and management ideas are getting debunked ck's radical approach to strategy managing people leadership teaching and life will continue to be relevant and will interest business leaders entrepreneurs policy makers students and the academia around the world the first edition published in 2014 covered a wide area and was perceived as ck's biography this edition covers more business pole vaulting stories with a separate chapter on india's mammoth potential to become a global leader in healthcare this book is an invitation to celebrate and learn from one of the world's greatest management thinkers ck was gathering us like a shepherd would gather his flock and was essentially bent on chastising us for what we hadn't done and how we could do anand mahindra chairman mahindra group a clear conscience is the softest pillow in the world is a quote of narayana murthy one of the founders of infosys n r narayana murthy or narayana muthy as he is better known was named nagavara ramarao narayana murthy he was born on august 20 1946 in a kannada madhya brahmin family in mysore as a child narayana murthy was a very intelligent and very good at studies he did his schooling from a government school the authors within the fringes of this book have tried to bring in the salient shifts in how and where nearly everything we buy is made in a compelling mix of history and on the ground reporting veteran journalist robyn meredith untangles the complex web of business and politics as well as environmental and cultural issues that entwine india china and the west she also outlines how americans business leaders workers politicians even parents can understand the vast changes coming and thrive in this new age

The People of India 2008-06-17 against all odds the it story of india is an insider s account and an anecdote rich history of indian it over the last six decades it taps into the first hand experiences of kris gopalakrishnan and fifty other stalwarts who built and shaped the it industry this is a tale of persistence and resilience of foresight of planning and being ready when luck knocks on the door of a spirit of adventure and above all of an abiding sense of faith in technology and the belief that it would do good for india it is a tale of triumph and the best is yet to come

The Elephant and the Dragon: The Rise of India and China and What It Means for All of Us

2022-10-24 technology has fractured democracy and now there s no going back all around the world the fringes have stormed the palace of the elites and unleashed data miners dark ads and bots on an unwitting public after years of soundbites about connecting people the social media giants are only just beginning to admit to the scale of the problem we stand on the precipice of an era where switching your mobile platform will have more impact on your life than switching your government where freedom and privacy are seen as incompatible with social well being and transparency where your attention is sold to the highest bidder our laws don t cover what is happening and our politicians don t understand it but if we don t fight to change the system now we may not get another chance

Against All Odds 2018-09-27 the march towards a new india began with its entry onto the global stage as a rising economic power impelled by liberalization policies and the forces of globalization the success of india s information technology it industry symbolizes these larger developments yet we lack a critical understanding of the wider social and cultural reverberations of this phenomenon reengineering india explores india s post liberalization transformation through the lens of the software industry this book views the it industry as a key site where new identities aspirations and social imaginaries are being created and circulated it examines the origins and organization of software capital the production of the indian it workforce the introduction of new forms of work and management and the connections between software and the new middle class the author argues that the software industry has been central to india s post liberalization refashioning yet it remains deeply embedded in older structures of inequality and modes of accumulation an anthropological account of the relationship between work class capital and culture in india s new economy this book is essential reading for thinking about the future of the post it revolution nation

Democracy Hacked 2016-07-07 the relationship between information and the nation state is typically portrayed as a face off involving repressive state power and democratic flows twitter and the arab spring google in china wikileaks and the u s state department less attention has been paid to those scenarios where states have regarded information and its diffusion as productive of modernity and globalization it is the central argument of this book that the contemporary nation state especially in the global south is far from hostile to the current informational milieu and in fact makes crucial use of it in order to develop adequate modes of governance communication and sociality in a networked world this book focuses on india an emerging country that has recently witnessed a software miracle to highlight the critical role informatics has historically played in the national imagination and to demonstrate how the state private capital and civic society have drawn upon and engaged the precepts and protocols of the information age to fashion an info nation

Reengineering India 2016-01-08 stories that bind political economy and culture in new india examines the assertion of authoritarian nationalism and neoliberalism both backed by the authority of the state and argues that contemporary india should be understood as the intersection of the two more importantly the book reveals through its focus on india and its complex media landscape that this intersection has a narrative form which author madhavi murty labels spectacular realism the book shows that the intersection of neoliberalism with authoritarian nationalism is strengthened by the circulation of stories about emergence renewal development and mobility of the nation and its people it studies stories told through film journalism and popular non fiction along with the stories narrated by political and corporate leaders to argue that hindu nationalism and neoliberalism are conjoined in popular culture and that consent for this political economic project is crucially won in the domain of popular culture moving between mediascapes to create an archive of popular culture murty advances our understanding of political economy through material that is often seen as inconsequential namely the popular cultural story these stories stoke our desires e g for wealth scaffold our instincts e g for a strong leadership and shape our values

Digital Politics and Culture in Contemporary India 2022-05-13 this volume examines the idea of india as it

emerges in the writing of its anglophone elite post 2000 drawing on a variety of genres including fiction histories non fiction assessments economic political and business travel accounts and so on this book maps the explosion of english language writing in india after the economic liberalization and points to the nation's sense of its growing importance as a producer of culture from ramachandra guha to william dalrymple from arundhati roy to pankaj mishra from jhumpa lahiri to amitav ghosh from amartya sen to gurcharan das from barkha dutt to tarun tejpai this investigation takes us from aesthetic imaginings of the nation to its fractured political fault lines the ideological predispositions of the writers often pointing to an asymmetrically constituted india a major intervention on how postcolonial india is written about and imagined in the anglophone world this book will be of great interest to scholars and researchers of cultural studies literature history and south asian studies it will also be of interest to general readers with an inclination towards india and indian writing
