*China's State Control Mechanisms and Methods* 2005 in authoritarian containment marie eve reny examines why local public security bureaus tolerate unregistered protestant churches in urban china an officially atheist country where religious practice is controlled by the state when the central government considers them illegal she argues that local states tolerate these churches to contain the underground practice of protestantism containment necessitates a bargain between informal religious organizations and the state even though they are not regulated unregistered churches are allowed to operate conditionally so long as church leaders keep a low profile share information as needed with local authorities and agree that the state will not grant them formal institutional recognition reny also considers authoritarian regimes other than china that employ a similar strategy to control informal religious communities she focuses on two middle east cases president sadat's control of the muslim brotherhood in 1970s egypt and the jordanian monarchy's containment of jihadi salafists after 2006 by reducing the incentives for local religious leaders to politicize and inducing such leaders to willingly provide inside information governments can avoid the heavy hand of coercion and forceful co-optation based on extensive fieldwork authoritarian containment offers insight into the way authoritarian regimes neutralize underground religious leaders and discourage opposition to the state

*Chinese Policing* 2009 in policing china suzanne e scoggins delves into the paradox of china's self projection of a strong security state while having a weak police bureaucracy assessing the problems of resources enforcement and oversight that beset the police outside of cracking down on political protests scoggins finds that the central government and the ministry of public security have prioritized stability maintenance weiwen to the detriment of nearly every aspect of policing the result she argues is a hollowed out and ineffective police force that struggles to deal with everyday crime using interviews with police officers up and down the hierarchy as well as station data news reports and social media postings scoggins probes the challenges faced by ground level officers and their superiors at the ministry of public security as they attempt to do their jobs in the face of funding limitations reform challenges and structural issues policing china concludes that despite the social control exerted by china's powerful bureaucracies security failures at the street level have undermined chinese citizens' trust in the legitimacy of the police and the capabilities of the state

*China's Security State* 2012-08-29 this book offers the first benchmarking study of china's response to the problems of security in cyber space there are several useful descriptive books on cyber security policy in china published between 2010 and 2016 as a result we know quite well the system for managing cyber security in china and the history of policy responses what we don't know so well and where this book is useful is how capable china has become in this domain relative to the rest of the world this book is a health check a report card on china's cyber security system in the face of escalating threats from criminal gangs and hostile states the book also offers an assessment of the effectiveness of china's efforts it lays out the major gaps and shortcomings in china's cyber security policy it is the first book to base itself around an assessment of china's cyber industrial complex concluding that china does not yet have one as xi jinping said in july 2016 the country's core technologies are dominated by foreigners

*Risk Prevention and Control System of Urban Public Security* 2023-09-26 this book figures out that network security and informatization have entered a development stage of greater permeation and deeper integration into all aspects of the economy and society in particular since the 2008 financial crisis the world's major economies have placed a strategic focus on network security and informatization in order to seek out new growth points alleviate energy and ecological pressures improve living standards and improve social governance through new technological transformations in fields such as cloud computing the internet of things mobile internet big data smart cities and a wave of applications the effects on the economy and society have emerged and will continue to make significant progress based on china's stage of new urbanization industrialization informatization and agricultural modernization and major characteristics as well as the intrinsic need for synchronized development this book encourages society to accelerate the pace of development expand the scope of work and promote informatization and the comprehensive coordinated effective linking and deep integration of informatization with all areas of the economy and society

*Research on the Rule of Law of China's Cybersecurity* 2022-01-22 examining the crimes that have recently been

of the greatest concern in china the authors assess the imbalance between public order and human rights in the way the chinese legal system deals with crime the issue of crime is of particular importance both because current social upheaval in china has greatly contributed to the increase of new crimes and because there is increasing international interest in chinese law following the country's accession to the world trade organization this is an in depth study on contemporary chinese law reform presenting a fascinating portrait of a society and legal system grappling with vast social change

China's Public Order Crisis and Its Strategic Implications 1994 offering comprehensive up to date and insightful analyses of china's public finance the book examines reforms identifies problems and provides solutions using the latest data and illustrative diagrams the author explains everything with expertise and clarity this is an indispensable resource for any researcher or student interested in china

*Authoritarian Containment* 2018-08-02 this work undertakes an analysis of extra legal institutions in china's criminal justice explaining their resilience and entrenchment with the thesis that sovereign power is premised on juridical mechanisms that allow the suspension of rights

*Policing China* 2021-06-15 countering recent hype around technology a leading expert argues that the endurance of dictatorship in china owes less to facial recognition ai and gps tracking than to the human resources of the leninist surveillance state for decades china watchers argued that economic liberalization and increasing prosperity would bring democracy to the world's most populous country instead the communist party's grip on power has only strengthened why the answer minxin pei argues lies in the effectiveness of the chinese surveillance state and the source of that effectiveness is not just advanced technology like facial recognition ai and mobile phone tracking these are important but what matters more is china's vast labor intensive infrastructure of domestic spying central government data on chinese surveillance is confidential so pei turned to local reports police gazettes leaked documents and interviews with exiled dissidents to provide a detailed look at the evolution organization and tactics of the surveillance state following the 1989 tiananmen uprising the chinese communist party invested immense resources in a coercive apparatus operated by a relatively small number of secret police officers capable of mobilizing millions of citizen informants to spy on those suspected of disloyalty the ccp's leninist bureaucratic structure whereby officials and party activists penetrate every sector of society and the economy from universities and village committees to delivery companies telecommunication firms and tibetan monasteries ensures that beijing's eyes and ears are truly everywhere while today's system is far more robust than that of years past it is modeled after mass surveillance implemented under mao zedong and chinese emperors centuries ago rigorously empirical and rich in historical insight the sentinel state is a singular contribution to our knowledge about coercion in the chinese state and more generally the survival strategies of authoritarian regimes

Cybersecurity in China 2018-05-15 this book examines the politics of policing in greater china including mainland china taiwan hong kong and macao as the author shows police ideological indoctrination is strongest in mainland china followed by hong kong and taiwan where the police is under increasing political stress in the aftermath of rising public protests and socio political movements macao's police on the other hand is far less politicized and indoctrinated than their mainland chinese counterpart this book demonstrates that policing in china is a distinctive and extensive topic as it involves not only crime control but also crisis management and protest control governance and corruption or anti corruption the management of customs and immigration the control over legal and illegal migrants the transfer of criminals and extradition and intergovernmental police cooperation and coordination as economic integration is increasing rapidly in greater china this region's policing deserves special attention

**Daily Report** 1994 crime long has been a silent partner in china's march to modernization leading the regime to make law and order as central a priority as economic growth and the promise of prosperity this groundbreaking study offers the first comprehensive and up to date analysis of chinese crime policing and punishment a multidisciplinary group of leading scholars draw on a rich body of empirical data and rare archival research to illuminate seldom explored theoretical dimensions of legal ideology and reform as well as the linkages between crime and control to broader themes of law modernization and development the authors balance comparative perspectives with an understanding of china's unique historical and cultural experience this context is critical the authors argue as crime and control are at the root of modernity and how it is defined in many ways the prc is reliving the experiences of other industrializing countries yet at the same time the practices of china's police and prison system also are painted with thick layers of historical memory order has become increasingly important in legitimizing the chinese regime but its practices and ideas of policing are often missing from our picture of chinese social and political development this important book's discussion of the paradoxes of policing and the problems of order bridges that gap and demystifies developments in china all those interested in modern and contemporary chinese politics law and society as well as in comparative
