power of the universe six days later a new york times editorial framed the dilemma of the new atomic age for its readers here the long pilgrimage of man on earth turns towards darkness or towards light american nuclear scientists aware of the dangers their work involved referred to one of their most critical experiments as tickling the dragon s tail even after hiroshima and nagasaki most americans may not

have been sure what an atomic bomb was or how it worked but they did sense that it had fundamentally changed the future of the human race in this book robert jacobson analyzes the early impact of nuclear weapons on american culture and society he does so by examining a broad range of stories or nuclear narratives that sought to come to grips with the implications of the bomb's unprecedented and almost unimaginable power beginning with what he calls the primary nuclear narrative which depicted atomic power as a critical agent of social change that would either destroy the world or transform it for the better jacobson explores a variety of common themes and images related to the destructive power of the bomb the effects of radiation and ways of surviving nuclear war he looks at civil defense pamphlets magazines novels and films to recover the stories the u.s. government told its citizens and soldiers as well as those presented in popular culture according to jacobson this early period of cold war nuclear culture from 1945 to the banning of above ground testing in 1963 was distinctive for two reasons not only did atmospheric testing make americans keenly aware of the presence of nuclear weapons in their lives but radioactive fallout from the tests also made these weapons a serious threat to public health separate from yet directly linked to the danger of nuclear war the bounce of the century they called it a ball kicked across cardiff arms park in the dying minutes of a match between two of international rugby's fiercest rivals the world's two greatest wingers waited as it bounced towards them knowing that whoever caught the ball would score and win the match for his country dragons and all blacks tells what happened when wales played new zealand in 1953 the story is written from contemporary accounts and the memories of the men who played that day including bob stuart and bleddyn williams for many of whom the match was the highlight of a career the book retells the stories of the two teams and the men who played for them and charts the events of their lives how they got to that meeting point in cardiff in december 1953 and what has happened to them in the half century since dragons and all blacks examines the remarkable relationship between two countries on opposite sides of the world brought together by a mutual passion for rugby with few parallels elsewhere it shows how their rivalry has developed over a century from perhaps the greatest of all rugby matches in 1905 to the single point thriller of 2004 and looks to its future in the aftermath of the 2005 welsh grand slam and lions tour of new zealand when nineteen year old mark lloyd entered the u.s. army in seattle washington in 1968 he thought he was invulnerable his induction that year marked the beginning of a long career in public service in dragon chaser he recounts his journey entering the army earning a green beret serving in vietnam working as a police officer on the streets of south central los angeles and joining the dea in this memoir lloyd tells how he became an undercover narcotics agent and served in the world's illegal drug hot spots chasing the dragon of illicit heroin in los angeles guam and thailand dragon chaser narrates how he led teams of dea agents raiding jungle cocaine laboratories and ambushing clandestine airstrips in peru how he helped solve dea's worst case of corruption in los angeles and how he managed some of dea's foreign operations while assigned to dea headquarters the stories include lloyd's deployment on a special mission to war scarred bosnia and how he successfully handled a difficult narcotics case involving a dea employee falsely imprisoned by the recalcitrant pakistani government a remarkable memoir of a
