through the central figure of emanuel silberstein this novel offers an exploration of identity and the futile attempt to define a self independent of others with a sharp eye on the swedish milieu it probes the roots of anti semitism and thus of prejudice and self deception in general if there is something i love the most in this life i believe it is socializing with the people i meet on the timeline of my life and i smile seeing what might even look as a total nonsense cause i met such a large spectrum of totally different souls quite soon after the war from ukraine started me and my family hosted people coming from there to my country i had the chance to meet in this way lots of lost souls going to an unclear direction having no idea about what will happen tomorrow they were on the path of a forced change and it was no chance as things to become better quite soon or at least not in the near future being retired not having what to do anyway spent all my time in their company i just loved their presence some connected with me from the first second but i also met some that found too weird that i was helping them and did not wanted to be so friendly from the beginning in the end i became the friend of all of them it was probably the first time in my life when i was investing all my time and energy trying to help the others and forget about my own interests and that was something new for me it looked like i was following a new path for my life and i liked it one of the ladies told me one day becoming a refugee is about change and mainly changing our values in life not so long time ago i cared a lot about what new jacket or shoes i will buy but now after losing all the 3 houses we owned in mariupol and almost all my clothes and shoes i simple smile today i wear clothes from the centers created for helping the refugees but i am happy that me and my family are alive and together i don t know if i really became a better soul but i totally changed my values of life for that lady being a refugees was a totally new experience same as for myself helping the others was a totally new way of spending my life without realizing i started little by little to change my values and my life 2 years ago if someone would tell me that i will spend my time like that i would laugh saying that is a horrible joke but today i just love my new friends the ukrainian refugees and i love them mostly cause in their companion i succeeded to show to the world the beautiful side of myself and it was so damn easy and i wonder why i haven t done that long time ago today i could have been a totally different person one with beautiful values as human being but you see it s never too late so the russian ukrainian war was a great opportunity for myself sounds weird but it really was the right time for me and maybe many others to see life from a totally different perspective and once the process of change started i just hoped that everything will continue for the inner self in how to tell a story and other essays is a useful book even if it isn't the funniest thing ever and the title essay really is chock full of good solid advice for budding writers in the literary line in defence of harriet shelley is a lengthy demolition of prof edward dowden's 1886 attempt at a biography of english poet percy bysshe shelley dowden laid all the blame for shelley's contemptible excesses on shelley's first wife harriet a child bride aged 16 fenimore cooper's literary offences is a rich chortle made richer by the fact that its seemingly hyperbolic charges are all perfectly true other selections include traveling with a reformer private history of the jumping frog story mental telegraphy again what paul bourget thinks of us and a little note to m paul bourget today's readers probably know less about paul bourget than they know of the poet shelley and care not at all about 19th century authorial cat fights
