from the first six cylindered mustang in 1962 through world beating boss and shelby models to 2015 s all new mustang this book offers all the data and detail mustang fans lust after excellent primer and quick reference guide historic text and basic specifications large b w photos close up details covers customline sunliner skyliner galaxie fairlane falcon futura mustang for the auto enthusiast lemon aid new and used cars and trucks 1990 2015 steers the confused and anxious buyer through the purchase of new and used vehicles unlike any other car and truck book on the market dr phil canada s best known automotive expert for more than 42 years pulls no punches every year global automakers introduce new or significantly re engineered passenger vehicles with increasingly advanced technology intended to exceed consumer expectations and satisfy increasingly stringent government regulations some of these technologies are firsts of their kind and start trends that other automakers soon follow with the innovations becoming adopted across the board the supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research develop and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners each year the editors of sae s automotive engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles and these articles have been collected into this volume this 2015 passenger car and 2014 concept car yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry in this book we explore from an oem and supplier perspective the newest and most technically interesting production vehicles released for the 2015 model year in addition we also have included a technology focused recap of the concept cars revealed during 2014 readers will have in one publication a complete overview of the key advances that took place over the course of the year from around the world each new model is profiled in its own chapter with one or more articles by the award winning editors and contributors of automotive engineering in this exclusive compilation of print and online content the novel engineering aspects of each new vehicle are explored with exclusive interviews of key engineers and product developers providing insights you can only get from you can only get from automotive engineering this book is published for the most technically minded enthusiasts who are interested in new car technologies as well as practicing automotive engineers who are interested in new engineering trends engineering trends explored focus on what engineers are doing to meet the sometimes conflicting consumer and governmental demands for improved vehicle fuel efficiency performance safety and comfort in short this book provides a single source for information on the key engineering trends of the year from both automaker and supplier perspectives allows the reader to skip to chapters that cover specific car models that interest them or read about all models from beginning to end makes for dynamic book reading with its large number of big full color images and easy reading magazine format 2001 2015 steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market dr phil along with george iny and the editors of the automobile protection association pull no punches the maintenance bible for boatowners is fully updated and better than ever if it s on a boat and it has screws wires or moving parts it s covered in boatowner s mechanical and electrical manual when you leave the dock with this indispensable resource aboard you have at your fingertips the best and most comprehensive advice on battery technologies including recent developments in lead acid and lithium ion batteries and fuel cells 12 and 24 volt dc systems electric and hybrid propulsion how to radically improve the energy efficiency of most boats corrosion bonding and lightning protection generators inverters battery chargers wind and water generators and solar power electric motors and electric lights marine electronics including networking systems antennas and rfi diesel engines transmissions shaft brakes and propellers refrigeration and air conditioning tanks plumbing and through hulls pumps and watermakers steering autopilots and wind vanes stoves and heaters winches windlasses and bow thrusters spars rigging and roller reefing larger b w photos lots of detail soft cover 8 1 2 x 11 format historic text and basic specifications makes a great primer and quick reference guide covers camaro mustang firebird barracuda and cougar convertibles 1967 through 1971 the classic guide to creating great advertising now covers all media digital social and traditional hey whipple squeeze this has helped generations of young creatives make their mark in the field from starting out and getting work to building successful campaigns you gain a real world perspective on what it means to be great in a fast moving sometimes harsh industry you ll learn how to tell brand stories and create brand experiences online and in traditional media outlets and you ll learn more about the value of authenticity simplicity storytelling and conflict advertising is in the midst of a massive upheaval and while creativity is still king it s not nearly enough this book is an essential resource for advertising professionals who need up to date digital skills to reach the modern consumer turn great ideas into successful campaigns work effectively in all media channels avoid the kill shots that will sink any campaign protect your work succeed without selling out today s consumer has seen it all and they re less likely than ever to even notice your masterpiece of art and copy let alone internalize it your job is to craft a piece that rises out of the noise to make an impact hey whipple squeeze this provides the knowledge to create impressive compelling work steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market dr phil along with george iny and the editors of the automobile protection association pull no punches this book steers buyers through the the confusion and anxiety of new and used vehicle purchases unlike any other car and truck book on the market dr phil canada s best known

automotive expert for more than forty five years pulls no punches popular science gives our readers the information and tools to improve their technology and their world the core belief that popular
