Feather Boas, Black Hoodies, and John Deere Hats

2017-12-05

in feather boas black hoodies and john deere hats jones once again challenges our beliefs about difference and acceptance as one reviewer writes through a series of rich narratives jones provides examples of attitudes experiences and institutional acts that continue to propagate the marginalization of people in our communities intertwined within these stories are thoughtfully selected ideas to help us understand that embracing difference and not merely respecting it can be the catalyst for real change in all of us the book engenders a dialogic space for individuals to grapple with the idea of difference and the importance of inclusion in educational environments and by extension broader society

since 2007 the government of ghana has been providing subsidized agricultural machines to private enterprises established as agricultural mechanization services enterprise centers amsec to scale up tractor hire services to smallholder farmers although farmer s demand for mechanization has increased in recent years most of this demand concentrates on land preparation plowing service using the firm investment model and recent data this paper quantitatively assesses whether amsec as a private enterprise is a viable business model attractive to private investors even though the intention of the government is to promote private sector led mechanization findings suggest that the amsec model is unlikely to be a profitable business model attractive to private investors even with the current level of subsidy the low tractor utilization rate as a result of low operational scale is the most important constraint to the intertemporal profitability of tractor hire services our findings further support the argument of pingali bigot and binswanger 1987 who indicated that mechanization service centers supported through government s heavy subsidy are not a policy option anywhere in the world even in the current situation in ghana although the tractor rental service market is a proper way of mechanizing agriculture in a smallholder dominated agricultural economy such as ghana this paper concludes that the development of such a market depends crucially on a number of factors including increased tractor use through migration across the two very different rainfall zones north and south increased tractor use through multiple tasks and use of low cost tractors the government can play an important role in facilitating the development of a tractor service market however the successful development of such a market depends on the incentive and innovation of the private sector including farmers who want to own tractors as part of their business portfolio traders who know how to bring in affordable tractors and expand the market and manufacturers in exporting countries who want to seek a long term potential market opportunity in ghana and in other west african countries

in this book the functions and dynamics of enterprises are explained with the use of anthropological methods the chapters are

based on anthropological research that has continued mainly as an inter university research project which is named keiei jinruigaku of the national museum of ethnology japan since 1993 these studies have a twofold aim to clarify that enterprises are not only actors in economic activity but also actors that create culture and civilization and to find the *raison d'être* of enterprises in a global society business anthropology is an approach to the investigation of various phenomena in enterprises and management using anthropological methodology e g participant observations and interviews historically its origin goes back to the 1920s 30s in the hawthorne experiments the research group organized by elton mayo recruited an anthropologist lloyd w warner and conducted research on human relations in the workplace by observation of participants since then similar studies have been carried out in the united states and the united kingdom in japan however such research is quite rare now in addition to anthropological methods the authors have employed multidisciplinary methods drawn from management economics and sociology the research contained here can be characterized in these ways 1 research methods adopt interpretative approaches such as hermeneutic and or narrative approaches rather than causal and functional explanations such as cause consequence relationships 2 multidisciplinary approaches including qualitative research techniques are employed to investigate the total entity of enterprises with their own cosmology in this book the totality of activities by enterprises are shown including the relationship between religion and enterprise corporate funerals corporate museums and the sacred space and or mythology of enterprises part i provides introductions to keiei jinruigaku and part ii explains the theoretical characteristics of keiei jinruigaku in addition research topics and cases of keiei jinruigaku are presented in part iii

Highway & Heavy Construction

1962

as ghana approaches its 60th birthday optimism and worries for the future continue to be present in equal measure economic growth in the last decade has been high by historical standards indeed recent rebasing of gdp figures has put ghana over the per capita income threshold into middle income country status however structural transformation has lagged behind fiscal discipline has also eroded significantly and there is heavy borrowing especially on the commercial market while elements of the natural resource curse from oil have already occurred the question most observers ask is whether the gains from two decades of reforms are being reversed given this background this volume brings together leading established and young economists from within and outside ghana to analyze and assess the challenges facing ghana s economy as it enters its seventh decade and the nation heads towards three quarters of a century of independence the chapters cover the major macroeconomic and sectoral issues including fiscal and monetary policy trade and industrialization agriculture and infrastructure the volume also covers a full range of social issues including poverty and inequality education health gender and social protection the book also examines the implications of the oil boom for ghanaiian development and the role of institutions

American Builder

1963

in most board rooms today the pressure to continuously shrink the distance from gross revenue to net operating profit and consistently improve roic is acute many have realized and many more are beginning to realize that a well integrated and managed supply chain is a major driver of continuously improving results advanced supply management strategy and execution makes the tie between competitive survival and supply chain leadership maturity of process and associated results it clearly defines how to achieve and maintain a supply chain leadership position by focusing on real world execution and detailed integration of specific actions and process techniques these distinguished experts and accomplished authors have gathered the nuggets of success from many international firms and combined them into a winning formula not available in other books that has been achieved by the select few this unique how to guide brings the opportunity within the sub processes of procurement and supply management into focus and includes both the hard side and soft side of the continuous process transformation the real world concepts deployment examples and illustrations are practical and explained with precision for ease of understanding and are tailored for application to any business environment this no fluff book will put money in your company coffers in most companies the effort to improve supply chain results has been short lived incomplete or sub optimized the most common reason is the lack of a clear understanding of what they really need to do specifically line of sight linkage of the enterprise in the transformation process efforts to customers and shareholders advanced supply management strategy and execution provides a credible integrated roadmap to extended supply chain and enterprise engagement and sustained optimized competitive business results it is a must read for executives consultants and managers in all types of operations management roles and is suitable for advanced academic courses as well

Contract Record

1962

low carbon technology transfer to developing countries has been both a lynchpin of and a key stumbling block to a global deal on climate change this book brings together for the first time in one place the work of some of the world s leading contemporary researchers in this field it provides a practical empirically grounded guide for policy makers and practitioners while at the same time making new theoretical advances in combining insights from the literature on technology transfer and the literature on low carbon innovation the book begins by summarizing the nature of low carbon technology transfer and its contemporary relevance in the context of climate change before introducing a new theoretical framework through which effective policy mechanisms can be analyzed the north south developed developing country differences and synergies are then introduced together with the relevant international policy context uniquely the book also introduces questions around the extent to which current approaches to technology transfer under the international policy regime might be considered to be pro poor throughout the book draws on cutting edge empirical work to illustrate the insights it affords the book concludes by setting out constructive ways forward towards delivering on existing international commitments in this area including practical tools for decision makers
