the work programme has the potential to work well for relatively mainstream jobseekers but is unlikely to reach the most disadvantaged long term unemployed people the government spent some 248 million less on the work programme than anticipated in 2012 13 due to providers under performance in a payment by results programme in the short term the committee urges the government to use the unspent work programme budget to extend proven alternative provision for disadvantaged jobseekers such as the work choice programme for disabled people extend and continue to promote access to work to help disabled people overcome the practical difficulties of starting a job and provide further support for individuals who complete their two year attachment to the work programme without finding sustained employment the committee also highlights that people with the severest barriers to work such as homelessness and serious drug and alcohol problems are often not ready for the work programme and need support first to prepare for it it recommends that dwp pilots ways of providing this additional support to prepare these groups for effective engagement with the work programme before they are referred in the longer term the committee calls on dwp to consider moving away from the current differential pricing model which is based on the type of benefit a participant is claiming to a much more individualised needs based model the report recommends that dwp should assess how a needs based pricing structure could determine the appropriate level of up front funding and the types of services required to support individual jobseekers

under current proposals the maritime coastguard agency plans to close ten of the existing 14 maritime rescue coordination centres and to leave three that remain open on a 24 hour basis and five that will operate in daylight hours only the transport committee found little support for the measures and has no confidence that under these proposals the coastguard will in future be able to respond to emergencies at sea as well as they do now let alone in a more effective way the committee is not convinced by the government s claim that technology can at present replace local knowledge serious concerns were raised that the safety of people at sea on cliffs and beaches will be jeopardised if the proposals proceed in their current form ministers must issue revised proposals for further consultation the committee also strongly condemns the government s cost cutting decision to withdraw funding for the four emergency towing vessels etvs stationed around the uk coast large tugs that intercept disabled ships to prevent environmental pollution disasters the transport committee also criticises proposals to completely remove government funding for the maritime incident response group mirg a national fire fighting at sea capability ministers should instead adopt a slimmed down mirg which is more cost effective than the present arrangement lastly the committee records its disappointment that mike penning mp minister for shipping instructed regular coastguards not to give oral evidence to the committee on the basis that they were junior civil servants
