provide additional practice opportunities solutions to the exercises are detailed and therefore provide substantial feedback this is an open access book the international conference on accounting management and economics icame is an annual agenda organized by the faculty of economics and business hasanuddin university in 2022 we would like to introduce to you the 7th icame with the current theme entitled innovation towards sustainable business we hope that our conference can add discussions and information from various research towards the discourse of new economic policy in the post pandemic era this activity also became an important agenda in publishing scientific papers by academics and became a positive contribution to mapping indonesia s future development therefore we would like to invite academics practitioners researchers to contribute to the development of economic and business management research through participating in the 7th of icame thank you for your participation and we look forward to meeting you at the conference the 43 papers in this collection originally published from 1972 to 1987 delve into accounting observing and exploring its functioning they construct a basis for interrogating it in use and indeed they attempt to account for accounting the author seeks to understand accounting to appreciate what it is what it does and how it does it examining it from without rather than from within in countries such as the uk the energy used in constructing occupying and operating buildings represents approximately 50 of greenhouse gas emissions pressure to improve the environmental performance of buildings during both construction and occupancy particularly to reduce carbon emissions from buildings has become intense understandably legislation and regulation are driving green development and compliance and this is happening in a wide variety of ways this review of the law in key jurisdictions for the research community lawyers the construction industry and government examines some of the mechanisms in place from the more traditional building regulation controls to green leases and the law relating to buildings and their natural environment members of the cib tg69 research group on green buildings and the law review aspects of the law relating to green development in a range of jurisdictions selecting from the wide range of research methodologies remains a dilemma for all scholars not least those looking to study the world of accounting both established and emerging research methods are frequently advocated creating a challengingly broad range of choices covering a selection of qualitative methodological issues research strategies and methods this comprehensive compilation provides an essential guide to the choice and execution of qualitative research approaches in this field the contributions are grouped into four sections worldview and paradigms methodologies and strategies data collection methods and analysis experiencing qualitative field research personal reflections edited by leading scholars with contributions from experts and rising stars this volume will be essential reading for anyone looking to undertake research in the qualitative accounting field this book concerns developments in the history of one accounting idea it discusses cash flow accounting and as such relates what can only be described as a recycled accounting problem cash flow accounting is the oldest form of monetary accounting preceding the now conventional accrual and allocation based accounting largely ignored in accounting literature since the early 1950s this collection concentrates on lee s work and provides the reader not only with a relevant selection of his writings on the subject since 1971 but also with a structured collection that explains the way in his thinking has developed on the subject and focuses on relevant influences in this work author e malcolm greenlees provides detailed information about the role of state governments in the regulation of gaming he also discusses the dominance of slot machines as the major revenue source in most casinos he provides information about changes in the types and operation of slot machines as well as accounting procedures for slot revenues the book covers every aspect of the financial management of a casino from the details of licensing and regulation to revenue taxation the management of slot machines and other gaming devices table games and betting operations revenue flows and internal cash controls cashiering accounting and financial reporting casino accounting and financial management has been recognized as the essential manual for gaming industry professionals since its first publication in 1988 this 2008 edition is updated throughout and greatly expands the original text addressing growth and changes in the casino industry as gaming has spread into new venues both nationwide and internationally incorporated new games and new technology and become subject to new management policies and new government regulations first published in 1996 this book summarises the seminar held in edinburgh in 1994 in the five hundredth year since the publication of luca Pacioli s *summa de arithmetica geometria proportioni et proportionalita* its purpose is simple but relevant to every accountant it revisits some fundamentals that lay behind Pacioli s decision to write his *summa* and examines whether the accounting framework in which we work today has overlooked basic issues because of its continued focus on development of the existing financial accounting model it analyses Pacioli s

legacy from several different perspectives deliberately choosing to do so in ways that addressed considerations that his work reflected examining the nature and characteristics of the bridge between academic analysis and insight on the one hand and practical application on the other it also looks at the dominant influences in the evolution of accountancy for managing stewardship and for reporting of that stewardship by doing so it attempts to identify influences that had been less pressing and so had been ignored or overlooked and also considers how changing technology has affected the way we manage the accountancy process we feel honoured and privileged to present the peer reviewed edited book titled emerging issues in accounting and finance research among our esteemed readers and academic fraternity the book intends to highlight the recent trends and developments in the field of business research and emphasize them for the perusal and understanding by different segments of society policy makers stakeholders corporates academicians research scholars etc this book is the outcome of the contributions of insightful research oriented papers articles by various eminent academicians scholars and researchers in a highly organized and lucid manner with a clear and detailed analysis related to the emerging areas in the fields of commerce management finance banking insurance financial services etc it is believed that our peer reviewed edited book will be of immense interest and value not only to the academic fraternity but also useful to researchers and policymakers provide future business professionals with a practical introduction to financial accounting with its unique focus on building students decision making skills and emphasis on financial statements financial accounting 9th canadian edition meaningfully integrates data analytics and the importance of using accounting information in real world decision making adaptive practice
